

COMBY 3000

Cleaning and sanitizing work can be incredibly enhanced with the use of steam, which - in addition - guarantees considerable savings on the consumption of water and detergents.

COMBY 3000 is a single-phase steam generator ideal for professional use, with a robust stainless-steel body. The machine is equipped with a "suction" function. Such technology, called Dry-Master, allows the operator to vacuum and dry-up perfectly the surface treated with steam. The boiler has a capacity of 1.5 liters, which develops 6 bar of pressure thanks to a pair of heating elements of 3200 W in total. The boiler is equipped with the exclusive Non-Stop System technology, which facilitates the continuous supply of water within the same, while the Click&Go system allows to start working with the machine within a few minutes from its switching on.

Our exclusive Flow-Master technology makes it very easy to manage steam and allows to decrease or increase its flow according to real needs. Comby 3000, moreover, is a very safe product: our Intelli-Boiler system automatically turns off the machine in case of emergency.

Thanks to our exclusive Dose-Master technology (from 2 to 16 levels), the electronic management of the "steam / detergent" mixture allows you to mix the ideal quantity of solution with steam, thus avoiding any waste. Comby 3000 is ideal for washing, sanitizing, and drying comfortably in a single pass. Compact and powerful, it ensures excellent results in all professional environments.

TECHNICAL FEATURES

Model	COMBY 3000	Temperature Max	160 °C
Power Supply	220V-240V	Steam Production	100 g/min
Max Power	3400 W	Refill Tank	2,2 L
Boiler Power	3200 W	Detergent Tank	2,2 L
Boiler Capacity	1,5 L	Vacuum Power	1200 W
Pressure	6 BAR	Body	STAINLESS STEEL
