

PRATIKA

Cleaning and sanitizing work can be incredibly enhanced with the use of steam, which - in addition - guarantees considerable savings on the consumption of water and detergents.

PRATIKA is a steam generator ideal for domestic use, equipped with a "suction" function. This technology, called Dry-Master, allows the operator to vacuum and dry-up perfectly the surface treated with steam. The boiler has a capacity of 1.5 liters, which develops 5 bar of pressure thanks to a pair of heating elements of 2400 W in total. The boiler is equipped with the exclusive Non-Stop System technology, which facilitates the continuous supply of water within the same, while the Click&Go system allows to start working with the machine within a few minutes from its switching on.

Our exclusive Flow-Master technology makes it very easy to manage steam and allows to decrease or increase its flow according to real needs. PRATIKA, moreover, is a very safe product: our Intelli-Boiler system automatically turns off the machine in case of emergency.

PRATIKA, thanks to its powerful steam cleaning system, will make your home a cleaner, more fragrant, and fully sanitized place.

TECHNICAL FEATURES

Model	PRATIKA	Temperature Max	155 °C
Power Supply	220V-240V	Steam Production	95 g/min
Max Power	2400 W	Refill Tank	1,5 L
Boiler Power	2400 W	Detergent Tank	-
Boiler Capacity	1,5 L	Vacuum Power	1200 W
Pressure	5 BAR	Body	ABS
