

QV6

Cleaning and sanitizing work can be incredibly enhanced with the use of steam, which - in addition - guarantees considerable savings on the consumption of water and detergents.

QV6 is a steam generator ideal for domestic and semi-professional use, with a robust stainless-steel body. The boiler has a capacity of 1.5 liters, which develops 4.5 bar of pressure thanks to a heating element of 2200 W. The boiler is equipped with the exclusive Non-Stop System technology, which facilitates the continuous supply of water within the same, while the Click&Go system allows to start working with the machine within a few minutes from its switching on.

Our exclusive Flow-Master technology makes it very easy to manage steam and allows to decrease or increase its flow according to real needs. QV6, moreover, is a very safe product: our Intelli-Boiler system automatically turns off the machine in case of emergency. QV6 is the ideal model for those operators looking for a reliable, compact and robust steam generator.

Thanks to its body in stainless-steel, in fact, QV6 ensures the solidity necessary for the most demanding cleaning needs.

TECHNICAL FEATURES

Model	QV6	Temperature Max	150 °C
Power Supply	220V-240V	Steam Production	90 g/min
Max Power	3000 W	Refill Tank	2,2 L
Boiler Power	2200 W	Detergent Tank	-
Boiler Capacity	1,5 L	Vacuum Power	-
Pressure	4,5 BAR	Body	STAINLESS STEEL
